EPIC CONFRONTATIONS

Confrontation™, is both a rule system and a range of splendid miniatures. Created by Rackham in 1996, it stages the fight between numerous factions in the medfan universe of Aarklash until the Final Battle, the ultimate combat of all races : the Ragnarok.

Rackham produced the game for almost 15 years, then stopped in 2010. During all those years, thousands of miniatures were designed, sculpted, and produced for the great pleasure of many players around the world. Therefore, this tragic episode shouldn't be the end of their favorite game : the Confrontation gaming community is still playing nowadays, organizing tournaments, publishing magazines, animating websites and facebook pages.

And since that time, many artworks are still waiting to give birth to new, unproduced creatures...

AFTER THE RAGNAREK

CONFRONTATION™ - RESURRECTION takes place after the ultimate battle. Factions are mutilated, disorganized. They roam Aarklash, seeking revenge and eager for conquest.

The armies of Light, Darkness and Destiny are healing their wounds and get prepared for new battles.

Griffon, Ram, Boar, Immobilis, Sphinx, etc. Which banner will be able to gather its forces and crush its foes?

FROM THE SHADOWS OF THE PAST TO FUTURE ALLIANCES, A NEW CHAPTER BEGINS IN THE CONFRONTATION.
